

# An industrial process operating knowledge discovery method based on process mining and its applications

Long Li, Bo Yang, Jince Li and Hongguang Li

College of Information Science and Technology,  
Beijing University of Chemical technology, China

- An industrial process operating knowledge discovery method is proposed.
- An event log generation method for industrial process operating data is proposed.
- The inference rules of industrial abnormality detections are proposed.
- The performances of the proposed method are validated through industrial steam drum process.
