

# A Bayesian Fusion Based Shared Control Strategy for Brain-Actuated Robotic Arm System

Linfeng Cao, Guangye Li, Yang Xu, Heng Zhang, Xiaokang Shu

State Key Laboratory of Mechanical Systems and Vibrations, Institute of Robotics, Shanghai Jiao Tong University, China

Dingguo Zhang

Department of Electronic and Electrical Engineering, University of Bath, UK

- **Hybrid BCI paradigm** to optimize the BCI decoding resources
- **Bayesian fusion based shared control strategy** to automatically optimize the robot motion.
